Compliant Healthcare Technologies, LLC (CHT), now offers local preventative maintenance services for your Medical Air/Vacuum Pumps and Compressors! With a local team of highly trained and certified technicians, CHT provides the preventative maintenance services you need. CHT's extremely responsive and courteous technicians can schedule a day/time that works best for you, and service your medical air/vac system pumps and compressors for optimal performance. Along with PM services, CHT offers compliance services for medical piped gas systems. Our computerized compliance software, CHxProgram, tracks all medical piped gas system assets and maintenance documentation.
